

WORK-BASED LEARNING EDUCATOR WORKSHOP

WORKSHOP DESCRIPTION

Join us for a highly interactive virtual workshop to design work-based learning experiences of varying types, address common challenges, and discuss recommended documentation and reporting strategies. Attendees will actively participate in small group discussion, ODE staff will assist with questions and idea generation. Following the design process, attendees will leave with a “prototype” experience to bring back to their classrooms for further exploration.

AGENDA

Introduction & Work-Based Learning Overview

- Intended Outcome: Create a common understanding of how work-based learning is defined for accountability purposes.

Following the Design Process

- Intended Outcome: Provide a facilitated working session that will guide educators through designing high-quality work-based learning experiences OR creating solutions to current challenges or barriers to student access.

Identifying What to Document & How

- Intended Outcome: Identify key elements of documentation and reporting for work-based learning experiences. Provide suggested resources and discussion time for educators to share promising practices.

Wrap Up: Taking These Ideas Home

- Intended Outcome: Equip educators to take these ideas back to the classroom!

Where: Virtually

When: September 29, 2021

Time: 9:00a.m. - 11:00a.m.

Registration: <https://www.surveymonkey.com/r/YMWCB2J>
